DETAILED ACTION

1. Claims 1-6 are pending.
2. At page 1 of the specification, the continuing data should be updated.
3. In the response filed November 26, 2008, Applicants have elected Group I, claims 1 and 6, without traverse. Applicants also identify the compound (I)-2 on page 42 as the preferred species.
4. Based upon the election of the compound (I)-2, the election of species requirement is withdrawn; however, the restriction requirement is maintained.
5. Applicants state the election is made without traverse, except it is submitted that claim 5 is not limited to a process of preparing a chemical compound of formula (IV), and thus it should be included in Group I.
6. It is the Examiner's position that claim 5 is not drawn to a compound of formula I. If the claim is drawn to a compound of formula I, this claim would be included in the invention of Group I.
 - The requirement is still deemed proper.
 - The requirement is therefore made **FINAL**.
7. Claims 2-5 are withdrawn from consideration. These claims have not been canceled.
8. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by

a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 1 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. What radicals are intended at the R position of the carbonyl radical (alone or in combination forms)? For instance, -C(O)-R represents carbonyl. Clarification is appreciated.

B. It is suggested that the phrase "and a salt" should be amended to read as "or a salt".

C. At claim 6, there is no antecedent basis for substituted amino?

11. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

12. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Eli Lilly & Company (Reference N, cited by the Examiner).

The instantly claimed compounds are disclosed. At page 14, lines 1-3, see the named compound. The compounds are depicted below:
